I'm a location sound recordist with over twelve years of experience in documentary, commercials, corporate films, drama and music. I have travelled extensively with considerable experience filming overseas. I am particularly interested in challenging locations when I can combine my love of the outdoors and travel with work.

I'm enthusiastic and easy going and work with a strong sense of professionalism but also a good sense of humour.

I'm active, keep fit and love the outdoors. When not working I'm mountain biking, climbing, mountaineering, running, off-road motorcycling, skiing and scuba diving. I'm passionate about food and cooking, I love an adventure and I'm at home in the wilds.

I have a very high level of technical proficiency and with four years of technical qualifications and a miss-spent youth I can turn my hand to most things.

Please get in touch to discuss projects and ideas or check my availability .
